Re: Request for Mandatory AIA Enforcement

Dear Ms. Lee:

The enclosed document is the report on the evaluation of the voluntary compliance effort in Seattle in the Central Core and North Alcohol Impact Area (AIA).

This report along with this cover letter is the City of Seattle's formal request for mandatory restrictions in the Central Core and North AIAs.

We understand that part of your review process will be to get community input at local public hearings. We are committed to supporting you in this process. Our departments can assist you in locating a location for such meetings and with informing and inviting community members.

We look forward to working with you and your staff, the Board, as well as community members and other interested parties, as we try to make the most effective use of the AIA tool for communities within our city.

Sincerely,
